

Street Furniture

Satu Bumi designs its street furniture with simple lines and robust construction to suite the practical requirements of public spaces. Satu Bumi has four standard GRC street furniture ranges: the Elementary Range, the Planter Bench Range, the Contemporary Range and the Rotunda Range. However, upon request, Satu Bumi has a large product engineering and design team that can easily custom build GRC street furniture to virtually any design, length or width required for any project.

Satu Bumi provides direct commercial-grade GRC street furniture solutions based on a combination of its standard catalogue based CityScape Range of premium GRC street furniture products shown in this brochure and custom-made GRC services. This service is best suited to architects, landscape architects, project estimators, project managers and professional landscaping companies that have projects that require commercial-grade GRC street furniture solutions that meet the specific design, size, durability, waterproofing and warranty requirements of their projects.

Street Furniture - Rotunda Range

		PRODUCT	DESCRIPTION	LENGTH (MM)	WIDTH (MM)	HEIGHT (MM)	WEIGHT (KG)	VOLUME (M ³)
