CityScape Commercial Grade GRC Products

This catalogue includes Satu Bumi's CityScape GRC (Glass-Fibre Reinforced Concrete) commercial landscaping product range which has been manufactured to a very high quality to suit the demanding practical, aesthetic and warranty related requirements of commercial construction and landscaping projects. This includes the use of the best available raw materials, sealants, packaging materials and quality control processes.

Satu Bumi manufactures and markets the CityScape range.

Satu Bumi manufactures and markets the CityScape product range and is a 100% owned Australian manufacturing company that uses GRC technology to create incredibly strong and durable precast concrete landscaping products.

Satu Bumi has an intense focus on customer service and the manufacture of the highest quality GRC planter boxes, GRC street furniture and other GRC based landscaping products. From its inception in 2012, Satu Bumi has built its own large and efficient ISO 9001 certified GRC factory in Indonesia, established a professional sales and marketing office in Australia, and created a far-reaching distribution network that delivers GRC products to most regions of the world including the US, South America, the UK, Continental Europe, Dubai, India, Singapore, Hong Kong, Indonesia, Australia, and New Zealand.

Satu Bumi has a unique solutions approach to the supply of quality GRC planters and GRC street furniture for commercial projects which includes the following six key elements : -

- Assistance with product specifications and costing
- Product engineering for custom made shapes and sizes
- Access to this CityScape catalogue of standard sized products
- Direct communication with the manufacturer
- Direct supply from the manufacturer
- Supplier side project management.

Square & Cube Planters

Satu Bumi's CityScape Square & Cube Planters are available in several standard heights, widths, and depths. However, variations to these standard sizes can be manufactured upon request.

Cube 400x400

7001.0.040.040.040
400 L x 400 W x 400 H
30 kg | 0.050 m³

Cube 500x500

7001.0.050.050.050
500 L x 500 W x 500 H
45 kg | 0.103 m³

Cube 600x600

7001.0.060.060.060
600 L x 600 W x 600 H
65 kg | 0.179 m³

Cube 700x700

7001.0.070.070.070
700 L x 700 W x 700 H
80 kg | 0.304 m³

Cube 800x800

7001.0.080.080.080
800 L x 800 W x 800 H
115 kg | 0.455 m³

Cube 900x900

7001.0.090.090.090
900 L x 900 W x 900 H
145 kg | 0.646 m³

Cube 1000x1000

7001.0.100.100.100
1000 L x 1000 W x 1000 H
220 kg | 0.893 m³

Tall Square 700x400

7015.0.070.040.040
400 L x 400 W x 700 H
45 kg | 0.091 m³

Tall Square 800x500

7015.0.080.050.050
500 L x 500 W x 800 H
60 kg | 0.172 m³

Tall Square 900x700

7015.0.090.070.070
700 L x 700 W x 900 H
105 kg | 0.390 m³

Tall Square 700x900

7015.0.070.090.090
900 L x 900 W x 700 H
105 kg | 0.514 m³

Tall Square 700x1000

7015.0.070.100.100
1000 L x 1000 W x 700 H
135 kg | 0.616 m³

Tall Square 700x1100

7015.0.070.110.110
1100 L x 1100 W x 700 H
156 kg | 0.771 m³

Tall Square 800x1200

7015.0.080.120.120
1200 L x 1200 W x 800 H
185 kg | 1.059 m³

Tall Square 1000x1200

7015.0.100.120.120
1200 L x 1200 W x 1000 H
256 kg | 1.316 m³

Tall Square 1000x1500

7015.0.100.150.150
1500 L x 1500 W x 1000 H
375 kg | 2.066 m³

Tall Square 1000x1800

7015.0.100.180.180
1800 L x 1800 W x 1000 H
485 kg | 3.003 m³

Tall Square 1000x2000

7015.0.100.200.200
2000 L x 2000 W x 1000 H
635 kg | 3.724 m³

Short Square 300x1000

7015.0.030.100.100
1000 L x 1000 W x 300 H
90 kg | 0.257 m³

Short Square 300x2000

7015.0.030.200.200
2000 L x 2000 W x 300 H
285 kg | 0.999 m³

Rectangle Planters

Satu Bumi's CityScape Rectangle Planters, often referred to as GRC Troughs, are available in several standard heights, widths, and depths. However, variations to these standard sizes can be manufactured upon request.

Rectangle 400

7050.0.040.080.040
800 L x 400 W x 400 H
50 kg | 0.104 m³

Rectangle 400

7050.0.040.100.040
1000 L x 400 W x 400 H
60 kg | 0.126 m³

Rectangle 400

7055.0.100.200.050
2000 L x 500 W x 1000 H
260 kg | 0.873 m³

Curved Edge Planters

Satu Bumi's CityScope range of Large Curved Edge Planters is a derivation of our rectangle and cube planters with the addition of stylishly curved side edges. These planters provide the general utility of standard cubes and rectangles but add a touch of style that will suite customers that are looking for something a little different. In addition, from a practical perspective, the curved edges of these planters provide a degree of safety in public spaces and are less likely to chip.

Curved Edge Cube

7021.0.040.040.040
400 L x 400 W x 400 H
30 kg | 0.044 m³

Curved Edge Cube

7021.0.050.050.050
500 L x 500 W x 500 H
50 kg | 0.094 m³

Curved Edge Cube

7021.0.060.060.060
600 L x 600 W x 600 H
65 kg | 0.176 m³

Curved Edge Cube

7021.0.100.180.060
1800 L x 600 W x 1000 H
240 kg | 0.938 m³

Tapered Top Planters

Satu Bumi's CityScape GRC Tapered Top Planters include a simple but attractive design variation to their top rim that can be added to any of the Rectangle, Square or H-Planter shapes in the CityScape Range. There are currently two sizes of this product in the standard range. However, custom sizes can also be made to suite specific landscaping projects.

Tapered Top Rectangle

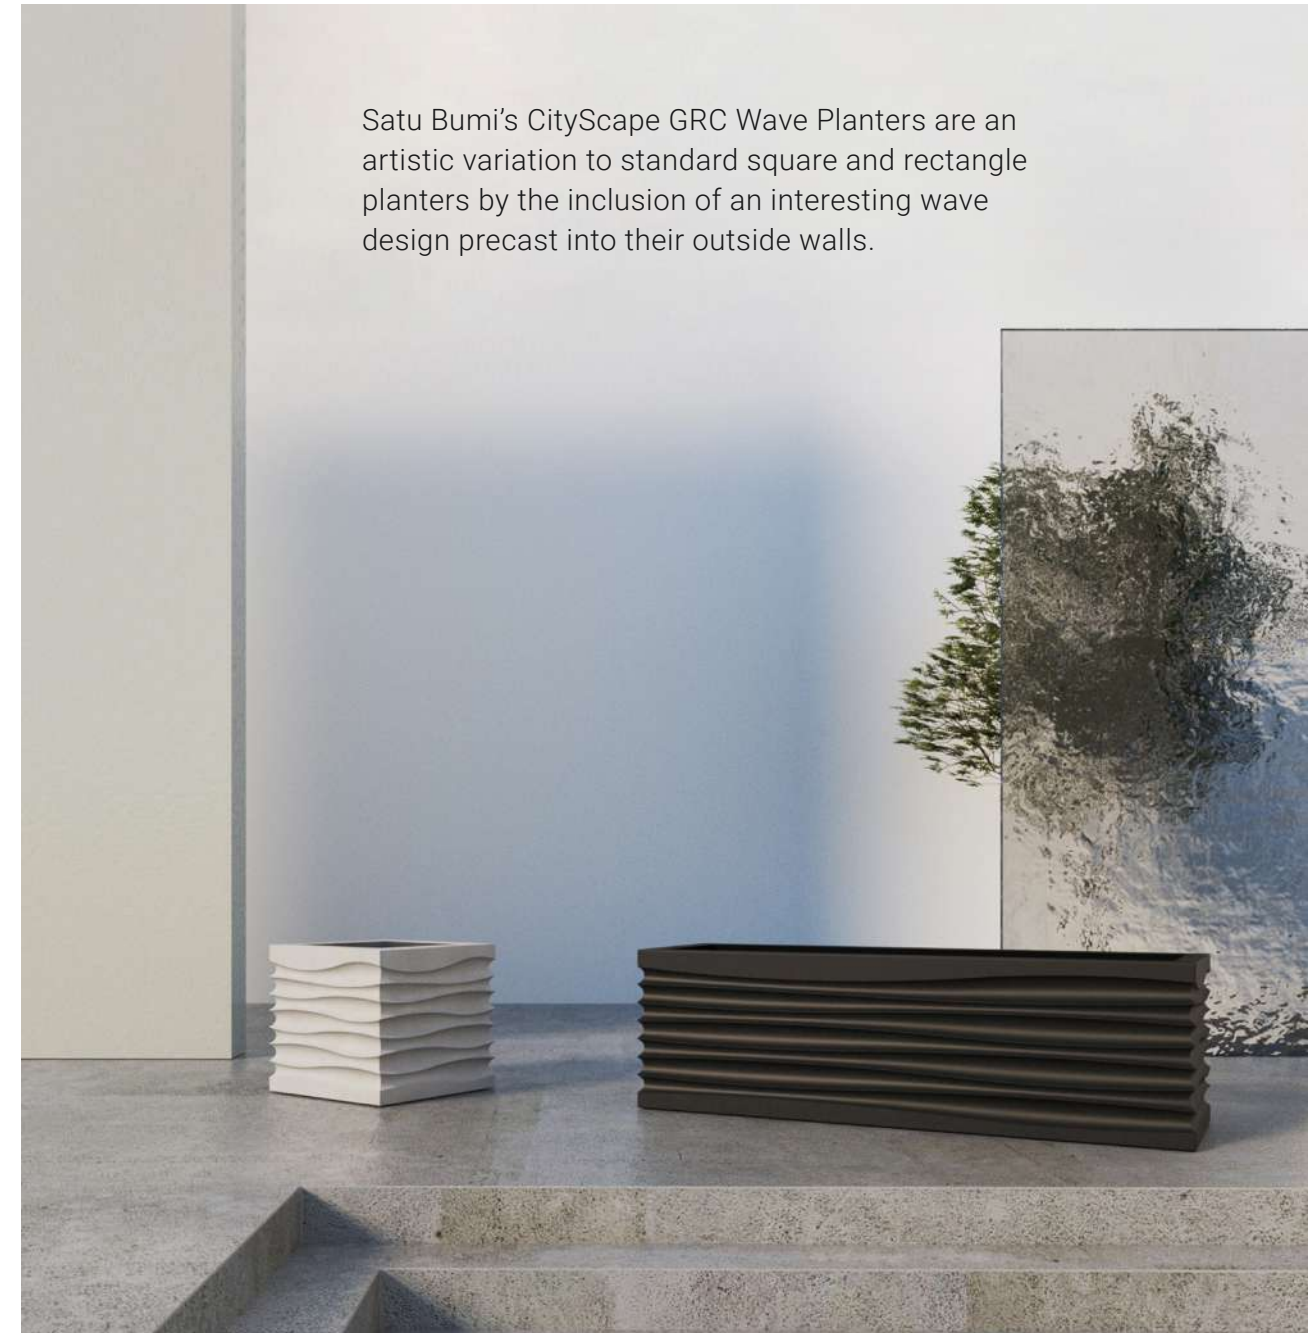

7062.0.120.141.060
1415 L x 600 W x 1200 H
225 kg | 0.891 m³

Tapered Top Triangle

7063.0.120.258.231
2581 L x 2313 W x 1200 H
690 kg | 4.126 m³

Wave Planters

Satu Bumi's CityScape GRC Wave Planters are an artistic variation to standard square and rectangle planters by the inclusion of an interesting wave design precast into their outside walls.

Wave Planter Rectangle

7022.0.056.183.061
1830L x 610W x 560H
185 kg | 0.506 m³

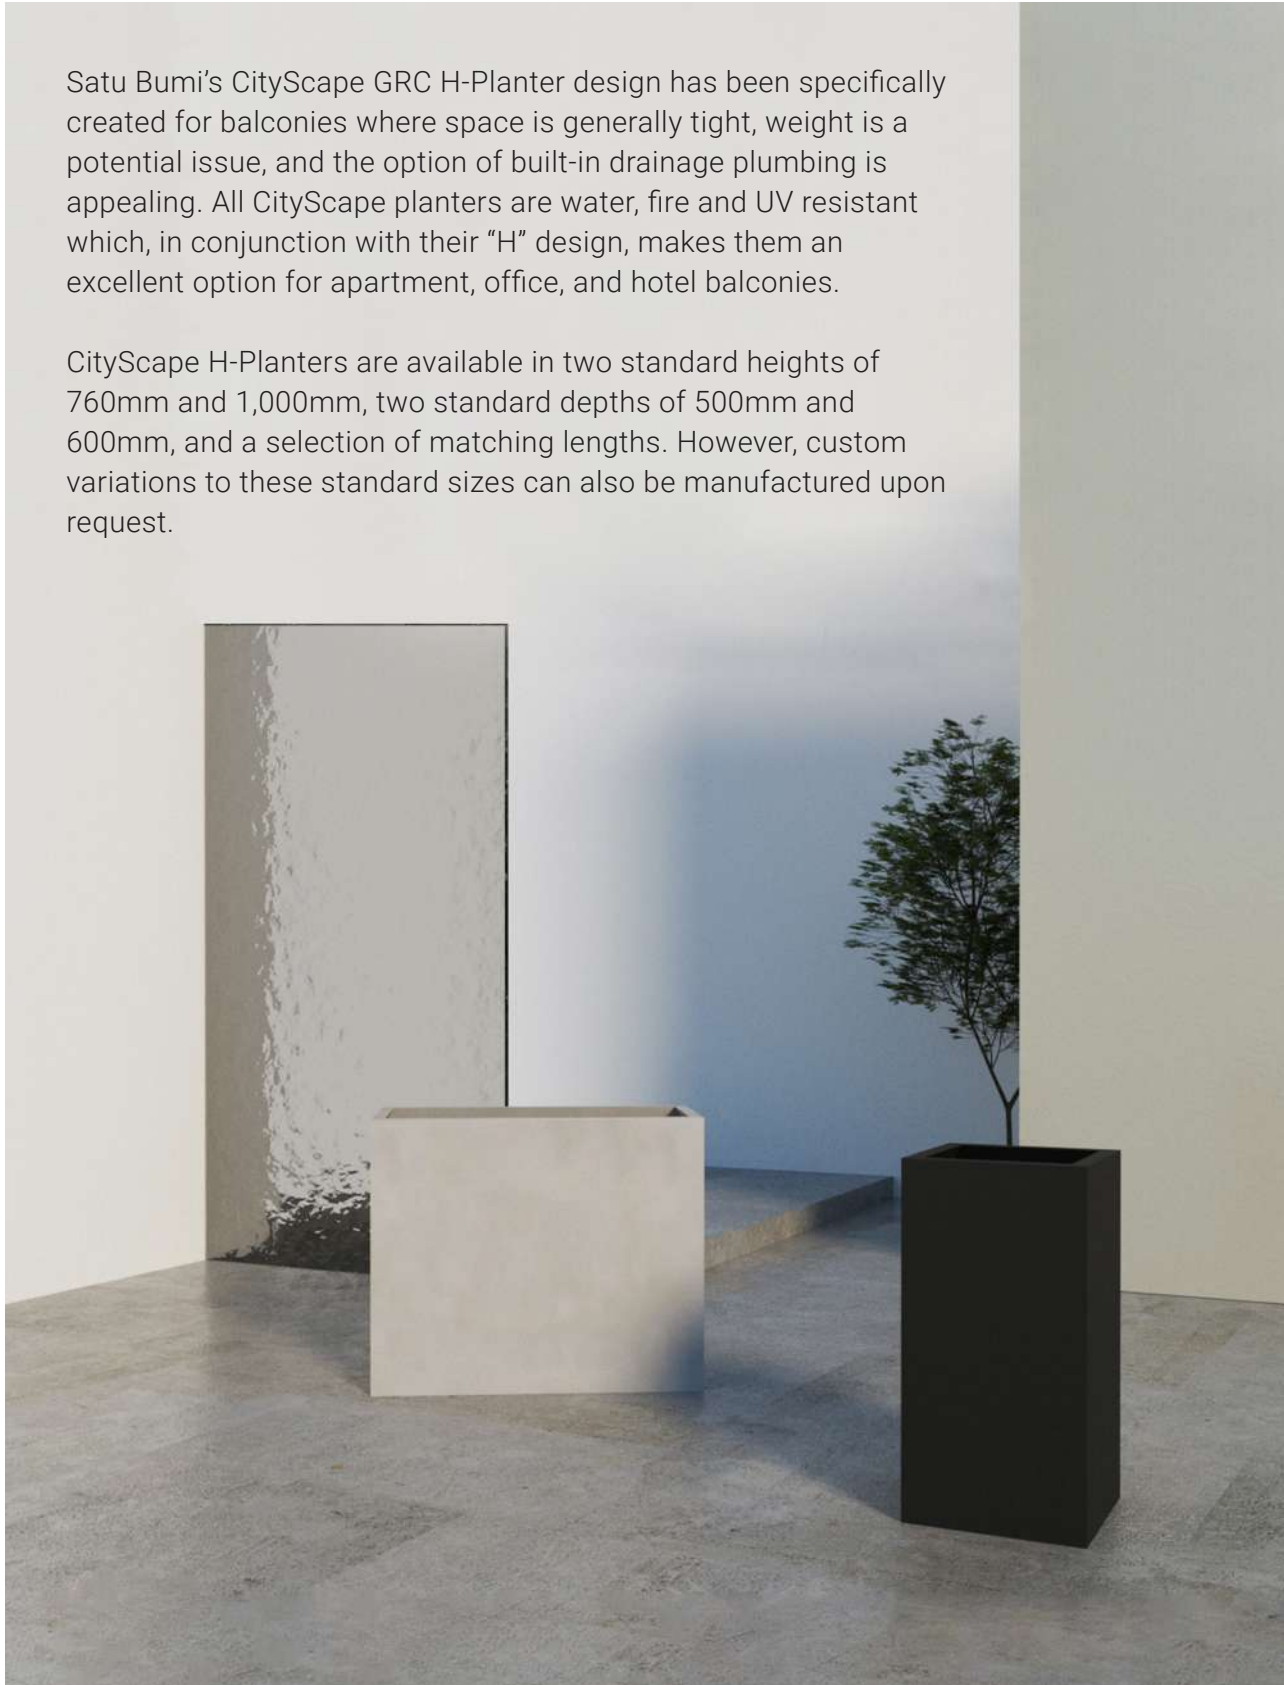

Wave Planter Square

7022.0.056.061.061
610L x 610W x 560H
85 kg | 0.153 m³

H Planters

Satu Bumi's CityScape GRC H-Planter design has been specifically created for balconies where space is generally tight, weight is a potential issue, and the option of built-in drainage plumbing is appealing. All CityScape planters are water, fire and UV resistant which, in conjunction with their "H" design, makes them an excellent option for apartment, office, and hotel balconies.

CityScape H-Planters are available in two standard heights of 760mm and 1,000mm, two standard depths of 500mm and 600mm, and a selection of matching lengths. However, custom variations to these standard sizes can also be manufactured upon request.

Bowls

Satu Bumi's CityScape GRC Bowl Planters are elegant, strong, and supplied with a high-quality internal bitumen water proofing sealant and a clear moisture resistant external sealant, making them adaptable for use as either planting bowls or water features. They are available in several different standard height and diameter categories. However, custom variations in heights and diameters to these standard sizes can be manufactured upon request.

1,190 kg | 6.767 m³

LARGE SEGMENTED BOWLS
Satu Bumi's CityScape technology enables the manufacture of large feature piece bowls that are a real landscaping statement. Segmented bowls are an excellent option when the required bowl diameter is too large to facilitate the available transportation or installation logistics.

SEATING BOWLS
Seating bowls come with a reinforced extended rim. These extended rims can be made for any bowl size but are more realistically relevant for inclusion on the larger bowl sizes which makes them ideally suited for public spaces.

Tree Surrounds

Satu Bumi's CityScape GRC Tree Surrounds come in two standard sizes. However, custom versions can be easily supplied upon request.

Tree Surround - Single Sided Seat

7092.0.045.220.220
2200 D x 450 H

Tree Surround - with Seat and Timber

7093.1.048.220.220
2200 D x 482 H
360 kg | 0.685 m³

Flower Pots

Satu Bumi's CityScape Range of Flower Pot Planters is a GRC version of one of the most traditional terracotta flower pot designs that has been fashionable for decades, particularly in smaller pots. However, whilst Satu Bumi's Flower Pot Planter Range retains that traditional flower pot appearance, it is focussed on large planter sizes because that is where GRC technology has significant advantages over terracotta and most other planter technology. These flower pot planters are intended for use in commercial applications where strength, quality and weather resistance are essential.

Large Classic Feature Planters

Satu Bumi has developed a range of feature planters specifically to suit commercial landscaping projects that require very large statement piece planters that have a classic design but are typically difficult to source from traditional planter suppliers due to their large dimensions and weight. These feature planters are made to order with CityScape commercial grade GRC technology, include inbuilt lifting lugs to facilitate installation, and are ideally suited for painted, acid oxide or pigmented concrete finishes.

160 kg | 1.118 m³

"Hip planters have a stylish round form with an elegant appearance."

Large Textured Feature Planters

Satu Bumi has introduced the Large Textured Feature Planters range due to high customer demand for very large planters that have highly textured external surfaces. These planters have very distinct textures and can be made with a wide range of painted, pigmented or acid oxide finishes. They are large, bold and very distinctive to make them stand out as highly attractive feature planters.

Elementary Bench

Satu Bumi designs its CityScape Street Furniture with simple lines and robust construction to suit the practical requirements of public spaces. Satu Bumi has four standard GRC street furniture ranges: the Elementary Range, the Planter Bench Range, the Contemporary Range, and the Rotunda Range. However, upon request, Satu Bumi has a large product engineering and design team that can easily custom build GRC street furniture to virtually any design, length or width required for any project.

Deluxe Rotunda

The Deluxe Rotunda Range is a premium version of the standard Rotunda Range shown earlier in this catalogue. This range not only incorporates the practical utility of the standard Rotunda Range, in also includes more aesthetically pleasing angles in its GRC elements and a thicker gauge of timber for its seating slats. These design attributes present a more designer image to the product range that will be well suited to both indoor and outdoor high-end landscaping projects.

TIMBER FINISH SELECTION

The following is a summary of the three colour options for Satu Bumi's standard timber range. Each of the three options are suitable for both indoor and outdoor use and can be provided with a timber thickness of either 26mm or 40mm.

CLEAR

Celebrating the innate beauty of natural wood, the Clear finish sealant on top of the natural wood slats preserves the timber's raw essence. This finish will darken over time in a similar way, but more slowly, than with the use of timber that is unsealed.

YELLOW OX

Inspired by the warm hues of autumn leaves, the Yellow Ox finish sealant on top of the natural wood slats presents a golden rich tone. This finish provides a bright appearance that would be well suited to spaces that have a modernistic appeal.

WALNUT

Drawing its inspiration from the luxurious dark tones of the walnut tree, the Walnut finish sealant on top of the natural wood slats provides an elegant rich tone. This is Satu Bumi's most ordered and most traditional finish.

CUSTOM GRC OPTIONS & EXTRAS

Satu Bumi has a whole range of custom finishes, textures, designs, sealants and drainage options for its CityScape Range that will enable Satu Bumi customers to align the functionality and/or aesthetic appearance of their GRC planters and street furniture to the requirements of virtually any specific landscaping project.

Planters and Street Furniture can be ordered in any of the following standard colours at no additional cost: -

Natural Grey – this is a natural raw concrete look made with grey cement without the introduction of any additional colouring.

Natural White – this is also a natural raw concrete look. However, it is made by replacing the grey cement with white cement and also without the introduction of any additional colouring.

Charcoal – this is one of our most popular colour options and is made by applying a specific dosage of an integrated oxide colouring additive to either the natural grey or the natural white GRC mixes during the manufacturing process.

For additional information on the custom options and extras available from Satu Bumi, please refer to the following web page on Satu Bumi's web site: -

ORDER DELIVERY ROADMAP FOR COMMERCIAL PROJECTS

The delivery and installation of GRC planters and street furniture for a commercial project typically happens towards the back end of the project and can be time critical with regards to project handover dates. However, since these items are generally not the main focus of the project management of a construction project, the detail of the logistics relating to the sourcing and delivery of planters and street furniture can be easily overlooked. Therefore, to avoid misunderstanding, the following typical delivery roadmap framework has been provided below for what needs to be considered to ensure that the delivery of GRC planter and street furniture orders correlate with an overall project plan.

	Suggested Time Allowance for Completion	Accumulated Time from Commitment to Order
Contractual Formalities	1 to 2 weeks	1 to 2 weeks
Shop Drawings	2 to 4 weeks	3 to 6 weeks
Production	6 to 8 weeks	9 to 14 weeks
Delivery	5 to 6 weeks	14 to 20 weeks

Contractual Formalities

- Since the contractual terms are the basis of an order, care needs to be taken to ensure both parties are comfortable with their contractual detail.
- Shop drawings cannot commence prior to the receipt of a formal purchase order and the agreed deposit.

Shop Drawings

- Since shop drawings will be carefully followed in the production process, care needs to be taken to ensure they fully reflect the customer’s requirements.
- Production cannot commence until the shop drawings are completed and formally approved by the customer.

Production

- Satu Bumi manufactures to order because it typically does not hold inventory.
- Production time can be impacted by the shape, size and finish required.

Delivery

- Delivery dates are typically confirmed four weeks prior to delivery.
- Full payment of the outstanding amount relating to an order typically triggers the delivery of that order to the relevant construction site.

Delivery Delays

- Warehousing charges are accepted by Satu Bumi for the first two weeks of delays in deliveries requested by the customer.
- Warehousing charges will be invoiced to the customer for delays in deliveries requested by the customer of greater than two weeks.

Allowance for the above time frames should be made in a commercial project’s project planning before a decision is made to purchase GRC products from Satu Bumi. This will ensure there are no unexpected supply-side delays in the delivery of the order. However, consideration should also be given to adding additional contingency time to the above roadmap format for projects that are large and/or have a significant amount of custom design or specialised finishing associated with them.

ADDITIONAL INFORMATION

- All prices shown are in Australian dollars and exclude GST or any similar country-based retail tax.
- The product weights shown in the product specifications columns are approximate estimates only. Actual product weights will vary from these approximations due to the manufacturing techniques required to make GRC products.
- The heights shown on the price list do not include the height of the planter feet because the feet heights are customer selectable at 0 cm, 10 cm, 15 cm, 20 cm or 25 cm. Therefore, to identify the overall height of the planters, the height of the feet should be added to their specified height.
- The cubic meters (m³) shown in the product specifications columns refer to the approximate volume of planter material required to fill the planters.
- Waterproofing in the pricing column headings means:
 - a. For planters – the inclusion of a premium internal bitumen membrane sealant and a premium external clear sealant.
 - b. For street furniture – the inclusion of a premium external clear graffiti resistant sealant.
- The information in this price list is accurate at the date of publication. However, it is subject to change for a variety of reasons. Therefore, it is advised that any relevant information should be confirmed with Satu Bumi before placing an order.
